Ensemble Security Operations Platform

legato security

OVERVIEW

Legato Security Ensemble is a state-of-the-art Security Operations Platform designed to increase visibility, reduce complexity, and increase the operational efficiency of your security team along with the security tools within your environment. Ensemble empowers organizations with heightened visibility, simplified alert management, real-time reporting, asset intelligence, and swift data correlation between SIEM and security tools. As businesses grapple with the complexities of the security landscape, Ensemble emerges to provide a unified and streamlined approach to security operations, transforming how organizations safeguard their assets against evolving threats.

PRODUCT FEATURES

INCREASED VISIBILITY

Ensemble customer receive unparalleled level of visibility into their security landscape. By consolidating data from various tools, organizations gain comprehensive insights, enabling proactive threat identification and response.

SIMPLIFIED ALERT MANAGEMENT

Ensemble reduces complexities associated with managing alerts. Through intelligent correlation, redundant and false alerts are minimized, allowing security teams to focus on genuine threats and respond promptly.

REAL-TIME REPORTING

Pull executive-level reporting, instantly. Customers benefit from real-time reporting capabilities, enabling them to stay informed about their security posture. This feature aids in making data-driven decisions and ensures a proactive approach to security management.

CAASM INTEGRATION

Ensemble provides advanced asset intelligence, offering a deep visibility and understanding of an organization's digital environment. This insight allows businesses to prioritize and fortify critical assets, enhancing overall security resilience.

DRIVING INNOVATION

>> **COST SAVINGS**
Streamlined alert management and increased visibility contribute to cost savings. By minimizing false positives and optimizing resource allocation, businesses can enhance operational efficiency and reduce unnecessary expenses.

>> **STRATEGIC DECISION-MAKING**
Real-time reporting empowers organizations to make informed and strategic security decisions. This leads to a more proactive and resilient security posture, safeguarding critical assets and data.

>> **ENHANCED COMPLIANCE MANAGEMENT**
Ensemble's asset intelligence ensures that security measures align with regulatory requirements, mitigating compliance-related risks.

>> **EFFECTIVE INCIDENT RESPONSE**
Ensemble's real-time data correlation accelerates the detection and mitigation of security incidents.

WHY LEGATO SECURITY?

INDUSTRY EXPERIENCE
Legato Security's analysts have decades of experience with organizations of all sizes and in different industries. From small to medium businesses to Fortune-sized enterprises, Legato Security has a reputation for providing targeted security solutions custom-built for each use case. Legato Security's advisors help organizations identify current gaps and vulnerabilities, then plan and implement a strategy built for industry-specific threats.

CUSTOMER-CENTRIC APPROACH
Meeting a customer's needs is priority number one. Legato Security will work closely with each customer to ensure a clear line of visibility and communication that meets the needs and requirements of each organization.

COST SAVINGS
By partnering with Legato Security, organizations can optimize their security investment. Our scalable solutions allow businesses to pay for only the services they need, reducing unnecessary expenses associated with managing and maintaining an in-house security infrastructure.
