

Legato Security's Managed Endpoint Detection & Response

legato security

OVERVIEW

Legato Security deploys state-of-the-art endpoint protection security software to ensure every endpoint throughout a customer's network is secured around the clock. Endpoint protection solutions utilize behavioral analytics, threat intelligence, and classic anti-virus tactics to prevent threats from compromising an endpoint. Legato Security delivers Endpoint Security Management services by managing, administering, and supporting endpoint protection software installed on customer endpoints. Our vendor-agnostic approach means customers can maximize existing investments and minimize onboarding time.

SERVICE FEATURES

REAL-TIME THREAT DETECTION

Continuously monitors and identifies potential threats in real-time to prevent malware, ransomware, and other malicious attacks.

AUTOMATED INCIDENT RESPONSE

Quickly and efficiently responds to security incidents through automated processes, minimizing the impact on your business operations.

CENTRALIZED MANAGEMENT

Provides a unified platform for managing and monitoring all endpoints across the organization, ensuring consistent security policies and updates

24x7x365 Managed Security

Legato Security's U.S.-based SOC operates around the clock, ensuring that your organization is protected every minute of every day,

BENEFITS OF MANAGED ENDPOINT PROTECTION

» ENHANCED SECURITY POSTURE
By continuously monitoring and responding to threats, a managed service significantly reduces the risk of data breaches and cyber attacks.

» REDUCED OPERATIONAL BURDEN
Offloading endpoint security management to experts frees up internal IT teams to focus on strategic initiatives and other business-critical tasks.

» SCALABILITY AND FLEXIBILITY
Managed services can easily scale with your organization's growth, ensuring that security measures are consistently applied across all endpoints, regardless of the size or complexity of your network.

» COST EFFICIENCY
By leveraging the expertise and infrastructure of a managed service provider, organizations can reduce the costs associated with in-house security management, including staffing, training, and technology investments.

WHY LEGATO SECURITY?

INDUSTRY EXPERIENCE

Legato Security's analysts have decades of experience with organizations of all sizes and in different industries. From small to medium businesses to Fortune-sized enterprises, Legato Security has a reputation for providing targeted security solutions custom-built for each use case. Legato Security's advisors help organizations identify current gaps and vulnerabilities, then plan and implement a strategy built for industry-specific threats.

CUSTOMER-CENTRIC APPROACH

Meeting a customer's needs is priority number one. Legato Security will work closely with each customer to ensure a clear line of visibility and communication that meets the needs and requirements of each organization.

COST SAVINGS

By partnering with Legato Security, organizations can optimize their security investment. Our scalable solutions allow businesses to pay for only the services they need, reducing unnecessary expenses associated with managing and maintaining an in-house security infrastructure.
