DRIVING INNOVATION

Customer Benefits

- 24x7 Managed Security: Legato Security ensures around-the-clock network security.

- Vendor Agnostic Security Solutions: This means that organizations are able to choose a best-of-breed security solution tailor-made for their needs.

- Compliance Assurance: Gives organizations the confidence that their organization will meet and maintain industry-specific regulations and compliance requirements.

Business Outcomes

- Maximize Current Security Investments: Legato Security will help improve the efficacy and efficiency of your existing security tools, instantly boosting your ROI.

- Improved Operational Efficiency: With Legato Security experts managing security operations, teams can focus on additional projects and priorities.

- Customized Risk Management: Organizations will benefit from specialized security solutions that align with their unique use cases and business needs.

DIFFERENTIATION THROUGH INNOVATION

MDR+

MDR+ goes beyond traditional MDR services by integrating CAASM**, SIEM, and the Ensemble Security Operations Platform.** MDR+ enables customers to create a best-of-breed security solution tailored to the needs of each organization.

Ensemble

Ensemble is Legato Security's proprietary Security Operations Platform that correlates disparate security tools within a customer environment. By aggregating alert data and telemetry, Ensemble provides customers with the visibility and context needed to respond to threats quickly and prevent a breach.

WHY LEGATO SECURITY?

Expert Analysis & Consulting

Legato Security's cybersecurity analysts are experts in delivering services that will address a variety of organizational needs, such as:

- ° Managed Detection and Response
- ° Professional and Strategic Security Services
- ° Proactive Security Services
- ° Incident Response and Threat Remediation

Industry Expertise

Legato Security's analysts have decades of experience with organizations of all sizes and in different industries. From small to medium businesses to Fortune-sized enterprises, Legato Security has a reputation for providing targeted security solutions custom-built for each use case. Legato Security's advisors help organizations identify current gaps and vulnerabilities, then plan and implement a strategy built for industry-specific threats.

Customer-Centric Approach

Meeting a customer's needs is priority number one. Legato Security will work closely with each customer to ensure a clear line of visibility and communication that meets the needs and requirements of each organization.

Cost Savings

By partnering with Legato Security, organizations can optimize their security investment. Our scalable solutions allow businesses to pay for only the services they need, reducing unnecessary expenses associated with managing and maintaining an in-house security infrastructure.
