

Case Study

legato security

Customer Overview

Industry: Real Estate & Property Management

Company Size: 480 employees

Security Team: 5-6 dedicated staff

The Challenge

- Inability to optimize their existing security spend and fully leverage the technologies to provide risk insights and mitigate threats.
- Needed a fully aligned, lean-in security partner to augment their limited staff.
- Incumbent provided limited access to threat intelligence (IOCs, threat actors), and delayed response and recommendations.
- Poor visibility into multiple attack vectors.
- Lack of internal expertise. proactive engagement.

Legato Security Solution

- **Legato Managed Security Provider Hosted SIEM/SIEMaaS**
 - Managed security event management
 - Alert management and consolidation
- **Remediation Services**
- **Vulnerability Management and Vulnerability Software**
 - Uncovered gaps in existing security posture

"I would recommend Legato Security to anyone, the relationship and services have been outstanding."

legato security
